Power Thefts

2870. SHRI RAMACHANDRAIAH RUMANDLA : Will the Minister of POWER be pleased to state :

(a) the details of the losses incurred by various State Governments on account of power thefts; and

(b) what steps are taken or proposed to be taken to check the thefts ?

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRI JAYAWANTI MEHTA) : (a) The losses being incurred by various State Governments on account of power theft cannot be assessed separately. The total T & D losses including losses due to theft of power, losses due to technical reasons and unaccounted losses being assessed by the concerned State Electricity Board/State Electricity Department for the year 1997-98 are given at Statement (*See* below)

(b) Though the Power distribution falls within the purview of the State Governments and the activities pertaining to prevention of theft of electricity and removing of illegal connection have to be taken care of by the power utilities operating under their jurisdiction, theft of electricity has been made a cognizable offence under the Indian Electricity Act, 1910 and the utilities have to effectively implement the provisions of the law to curb the theft of electricity.

Guidelines for Energy Audit and for reduction of transmission and distribution losses have already been issued which included :—

(i) Installation of meters inside tamper proof meter boxes sealed with numbered seals.

(ii) Setting up of vigilance squads and conducting surprise raids to check theft of energy.

(iiii) Prosecution against persons found indulging in theft of energy.

In the Power Ministers Conference held on 26-2-2000, it was resolved to reduce the T&D losses by energy audit, 100% metering, reduction of power theft, and strengthening/upgradation of sub-transmission and distribution system.
